SC FOREST FACTS

- 13.1 million acres of forestland
- 67% of SC's land area is forested
- 52% hardwood / 48% pine types
- 24% planted pine, producing >50% of timber supply
- 88% private / 12% public
- 300,000 family forest owners (86,000 own >10 acres)
- Growth exceeds harvest
- Timber volumes at record levels
- Unbalanced pine age-class structure

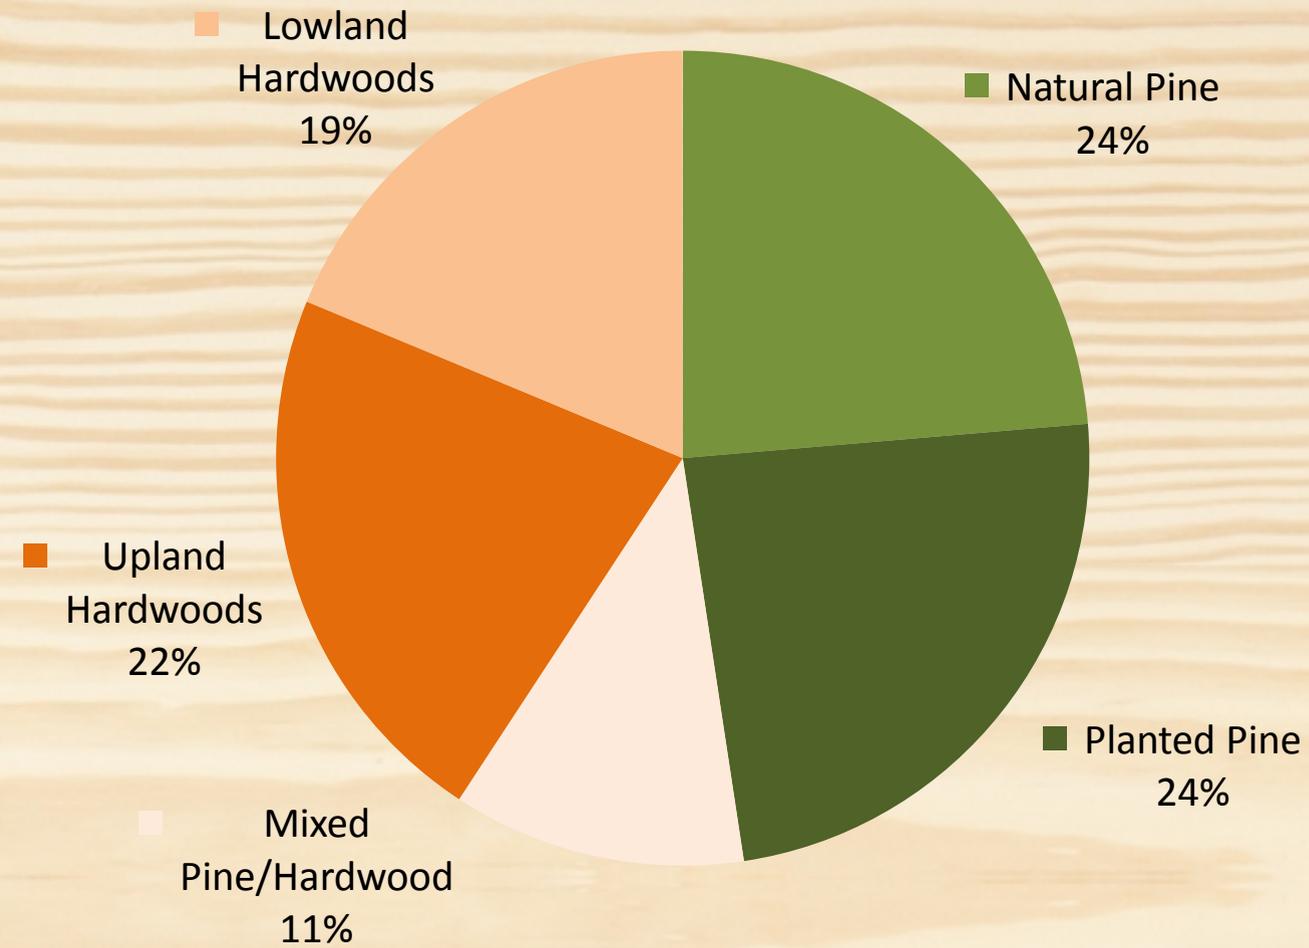

SC HAS THE MOST UP-TO-DATE FIA DATA

- Describes the extent and condition of the state's forests.
- Completed 10 surveys between 1936 and 2011.
- Data collected by SC Forestry Commission
- Data analyzed and published by USFS

SC's FORESTS ARE BALANCED AND DIVERSE

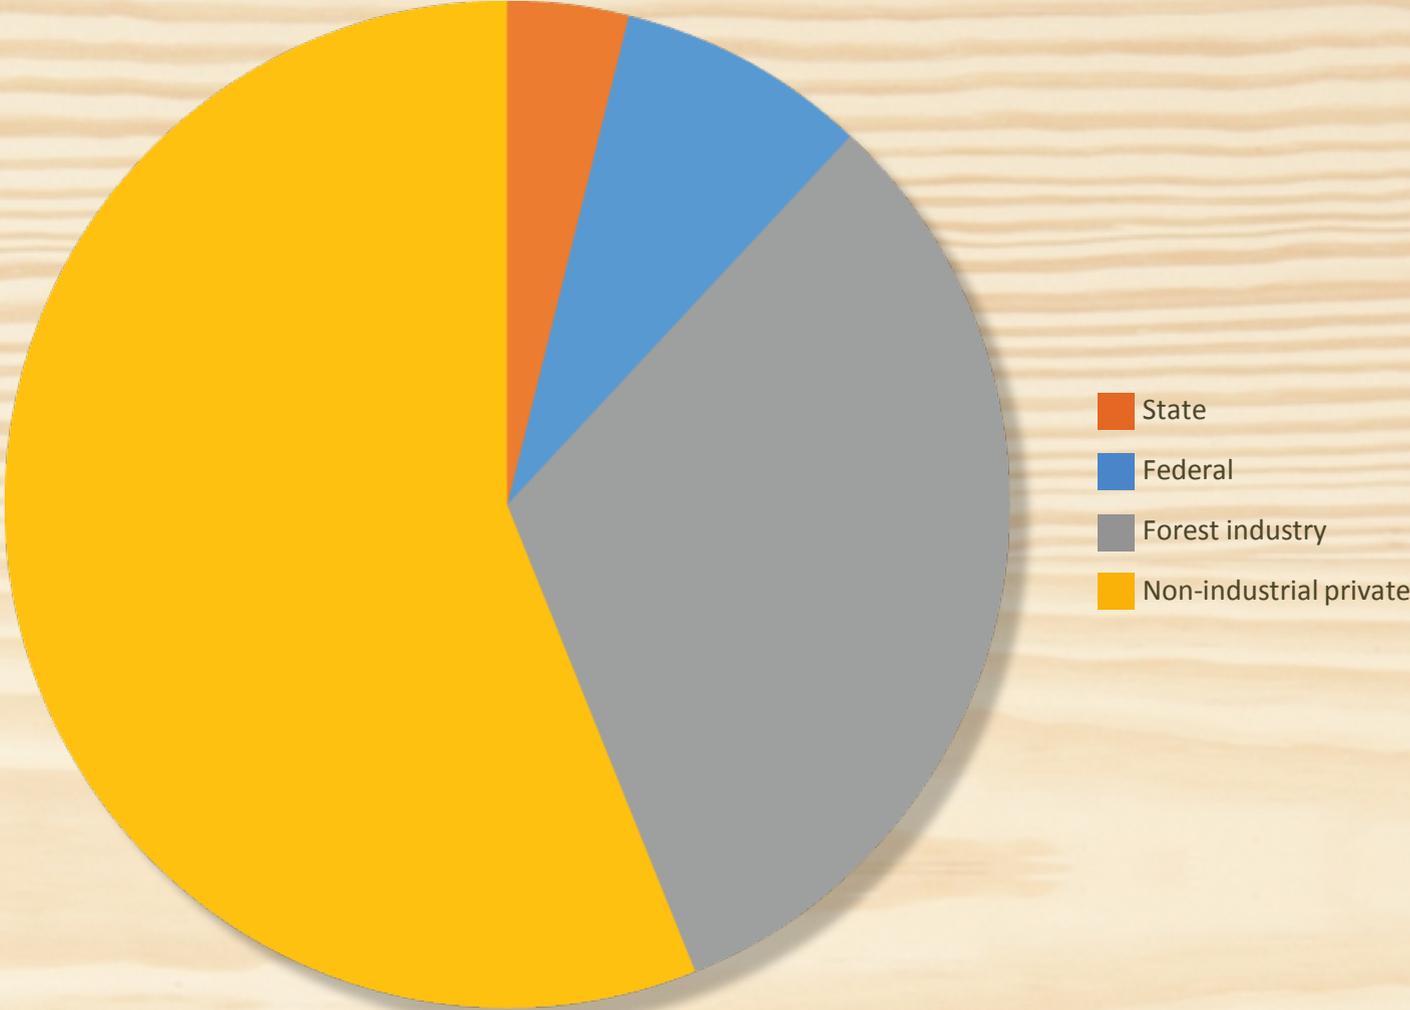

South Carolina Forest Types, 2013

PRIVATE LANDOWNERS ARE KEY TO WOOD SUPPLY

LAND OWNERSHIP, 2014

Private citizens own 88% of South Carolina's forestland and produce 96% of the state's timber supply.

SC FAMILY FOREST LANDOWNER STATS

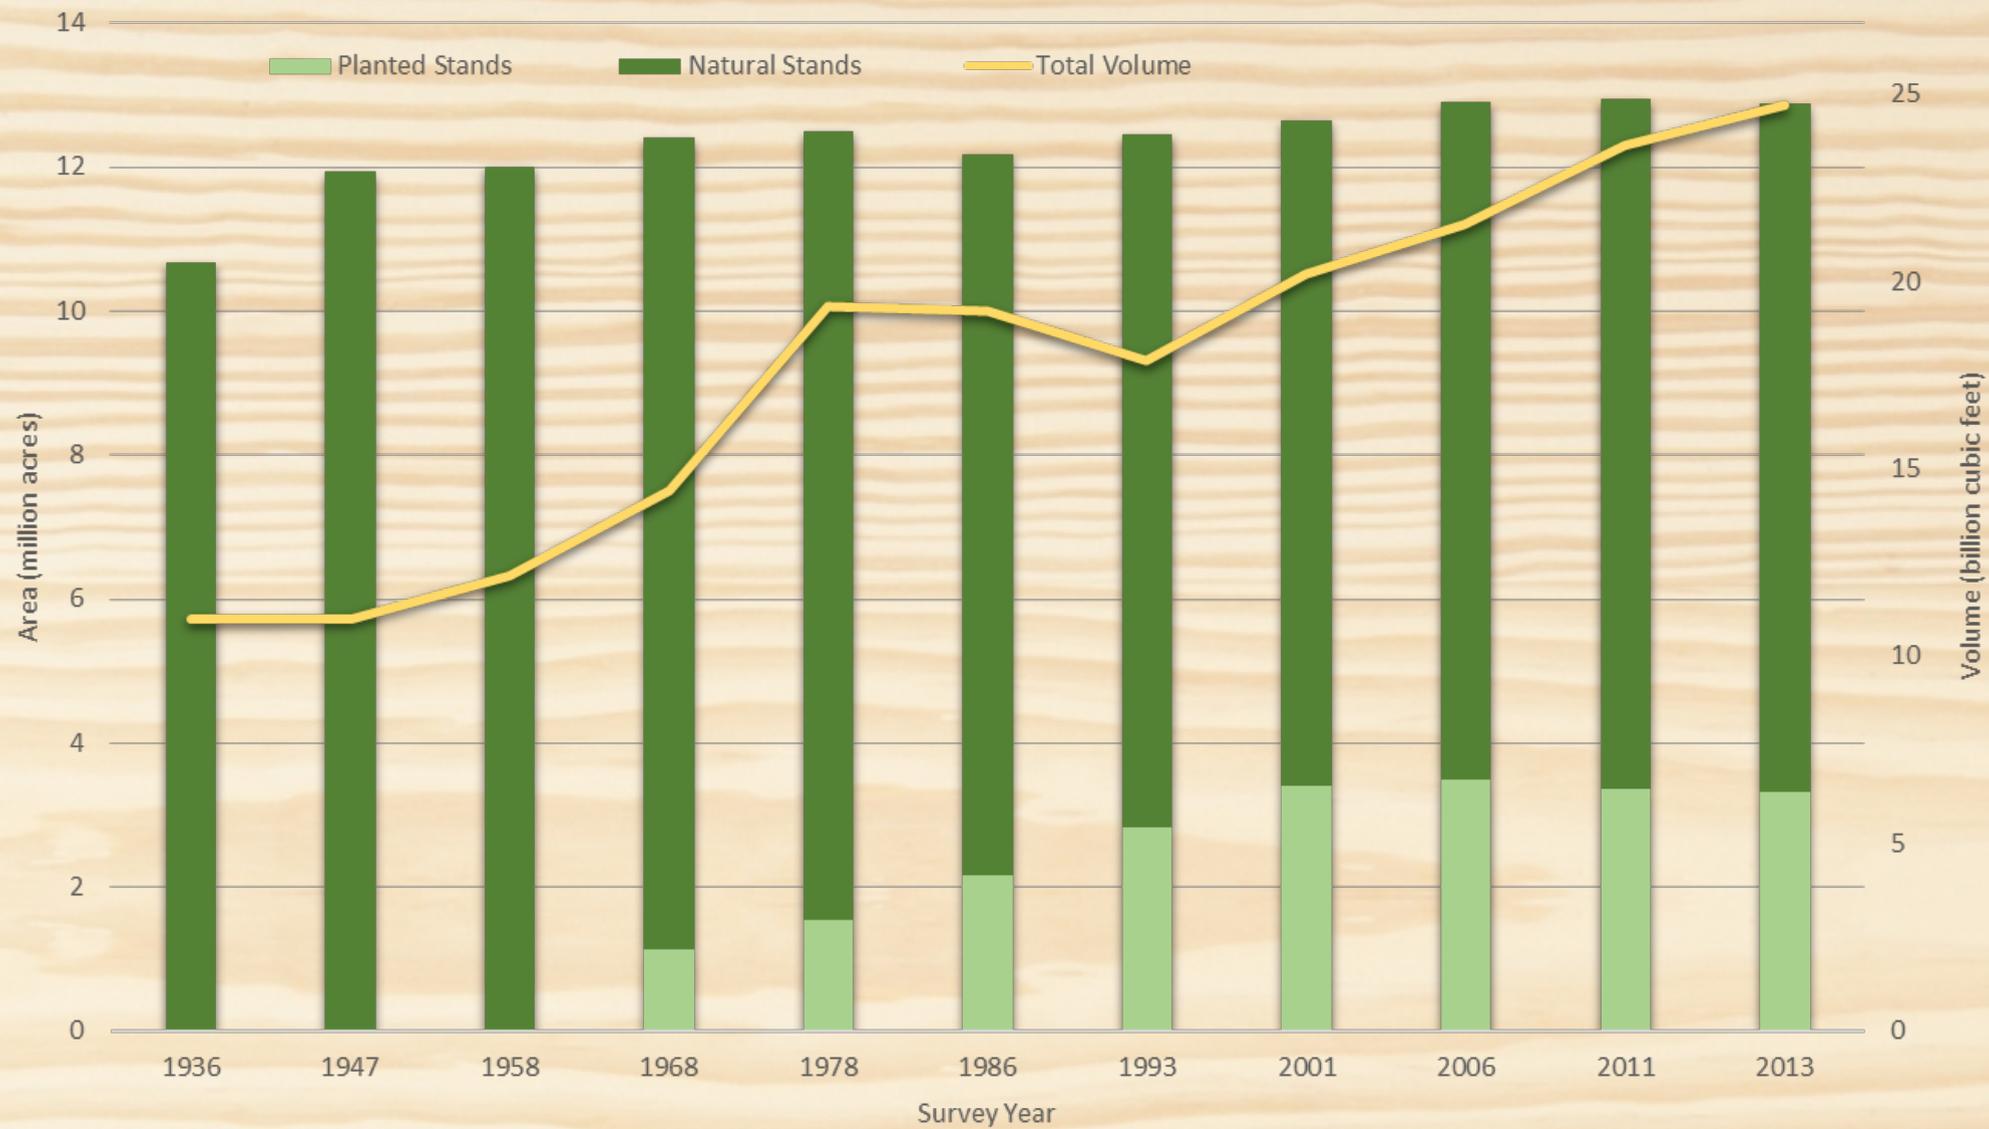

- 14,000 forest family landowners have a written forest management plan.
- 11,000 have implemented elements of their plan.
- 61% of the plans were written by private consultants.
- Reasons given for not having a plan:
 - Don't need one
 - Too busy to be bothered
 - They are too expensive
 - Too complicated.

SC FORESTRY'S ECONOMIC IMPACT

\$18.6 BILLION

THE 20/15 PROJECT VISION

Grow the forest industry from \$17.4 billion to \$20 billion in total economic impact by the year 2015

20/15 ACTION ITEMS

- Retain and grow existing businesses and seize new opportunities.
- Fully utilize record timber volumes.
- Conduct needed research and development
- Aggressively market SC forest products and business opportunities.
- Address infrastructure needs.
- Protect forests and business investments.

ECONOMIC RELATIONSHIPS

- \$17.4 billion and 90,000 jobs from 23.4 million tons of wood
- One ton = \$744 economic impact
- 260 tons = one job
- 10.4 log trucks = one job

HOW TO REACH \$20B BY 2015

- Increase timber production from 23.4 to 27 million tons
- And/or increase value added from \$744 to \$855/ton
- 2013 production was up about 9.6% (25.65 million tons)
- 25.65 million tons approximates a \$19 billion economic impact
- Current IMPLAN economic impact study will confirm status

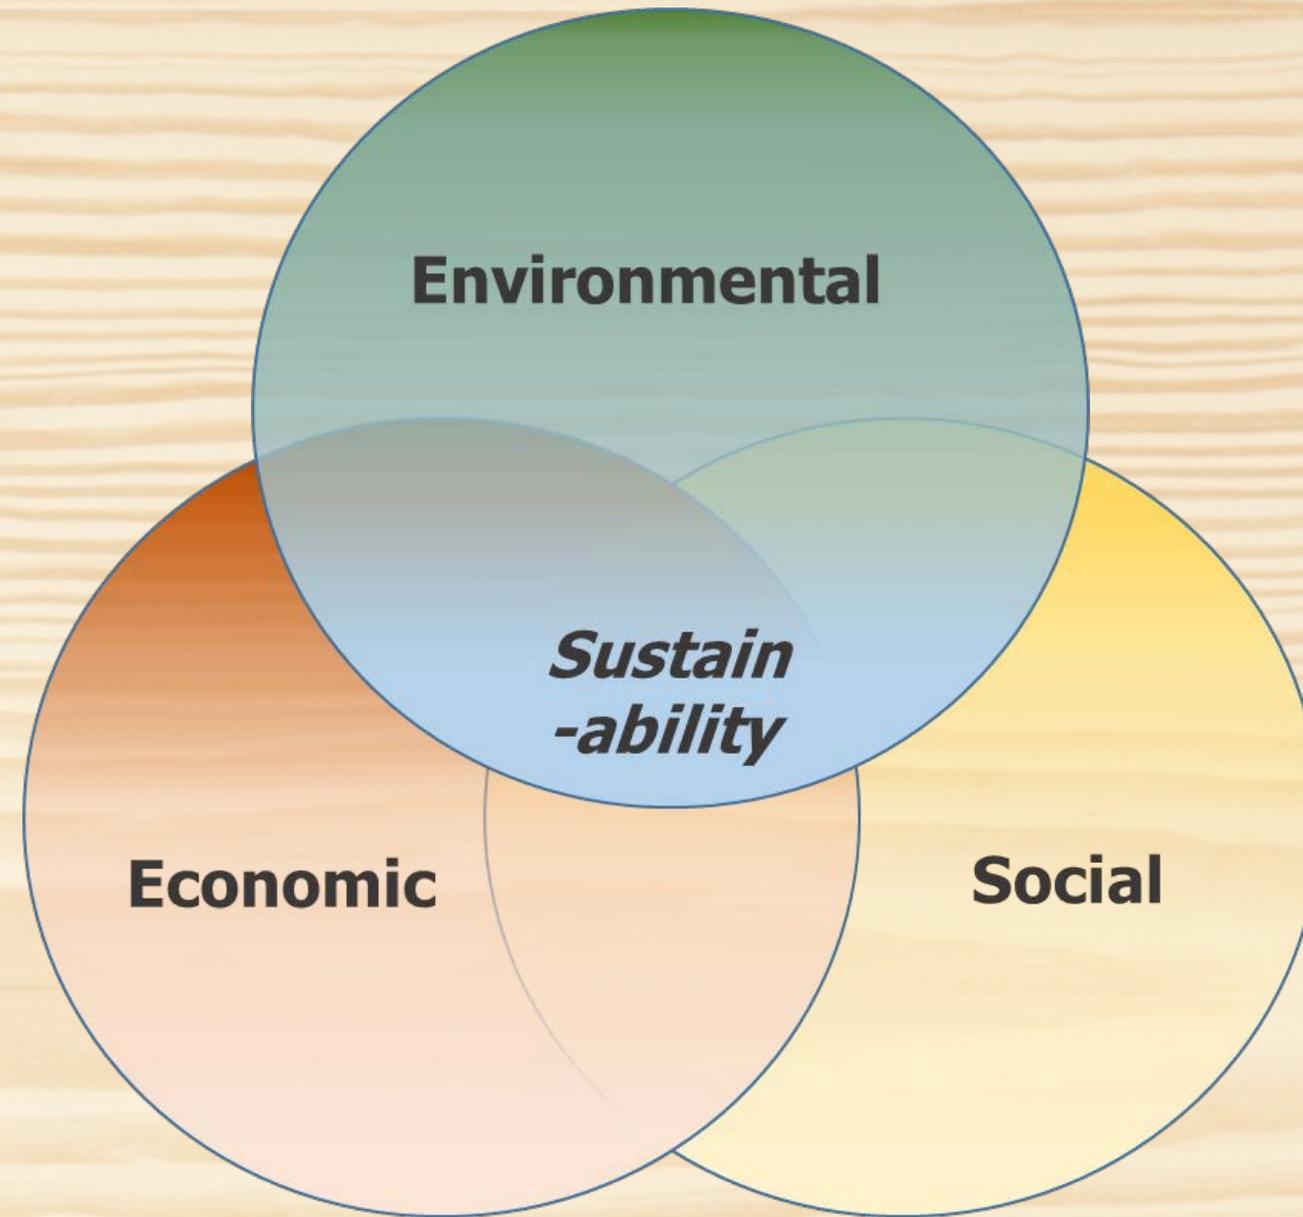

THE FOREST INDUSTRY'S EXPANDING

despite declining pulpwood-sized pine timber

- Expand sawmilling
- Retain pulp & paper & OSB manufacturing
- Increase exports
- Increase secondary manufacturing
- Increase active forest management
- Plant more trees
- Public and private effort!

FORESTRY IS AN “IDEAL” INDUSTRY

SC'S FOREST INDUSTRY GROWS,
AND SO DO ITS JOBS!
